

Product Information

LAND ROVER DEFENDER/DISCOVERY 200/300 TDI

PART NUMBER: B-LRD-TDI

Kit Contents:

- 1 x 35mm Revotec Land Rover Fan Controller
- 1 x 15.2" (385mm) High Power Sucking fan
- 1 x Set Retrofit Mounting Brackets
- All necessary mounting hardware & Instructions

Benefits of fitting an electric fan:

- Engine reaches operating temperature quickly, reducing wear.
- Sufficient cooling when needed i.e. sitting in traffic idling.
- Overcome hotter running caused by modern fuel.
- Increased performance.
- Improved fuel economy.
- Reduced load on engine.

What makes Revotec products unique:

- Quality- Fan Controller made to do the job, manufactured in the UK.
- Retrofitted without any modification, keeping vehicle originality.
- High quality OEM parts and components used throughout.
- Each kit contains vehicle specific brackets designed to fit without permanent modification.
- Each kit has been developed to give an OEM fit and appearance.
- Each kit consists of a controller, fan(s) and all necessary mounting hardware.

Revotec Electronic Fan Controller vs probe type mechanical switch:

- No leaks - A capillary device is prone to poor sealing
- The Revotec sensor is sealed into the aluminium sensor body, giving extremely quick and accurate sensing of the water temperature.
- No restriction of coolant flow.
- Always in contact with the water – giving a more accurate temperature reading.
