

Developed specifically for the Mercedes-Benz 230SL (W113) 'Pagoda', our cooling kits provide upgraded airflow when you need it.

- ✦ Replaces original engine-driven viscous fan.
- ✦ Increases airflow across the radiator core.
- ✦ No permanent vehicle modifications.
- ✦ Utilises original radiator fixing bolts for location.

Adjustable Electronic Fan Controller

- ✦ Direct contact with coolant for fast and accurate control.
- ✦ No restriction to water flow.
- ✦ Fully adjustable from 70°C - 120°C (158-248°F).
- ✦ Simple to install and connect, just three wires.

Twin Comex 10" High Power Suction Fans

- ✦ Increased airflow above original.
- ✦ OEM Quality.
- ✦ Sealed motor with ball bearings.
- ✦ Balanced blades.
- ✦ Rated to run continuously.

Vehicle Specific Fan Mounting Frame

- ✦ Mounts to existing radiator mounting points and looks like a factory fitted upgrade.
- ✦ Larger than standard radiator core coverage for maximum efficiency.
- ✦ Laser cut for precision and powder coated for durability.
