Please note, photo B shows the Non Res fitment, Resonated is the same fitment

A) When Fitting the GPF delete pipe the original system requires cutting 80mm from the centre mounting bracket. De-bur this edge as the Scorpion adaptor will fit over it.

Further instructions on removing the original GPF-Back system are provided with the Scorpion GPF-back system.

B) Re-fit the tube to the support bracket on the GPF delete pipe.
