Outer Grille Fitting Instructions:

Fit masking tape around the apertures to protect the paintwork while fitting.

1. Offer the grille to aperture and guide the grille into position making sure it is central in the aperture first (fig 1).
2. Ensure the retaining bracket has fitted to the grille (fig 2).
3. Secure the retaining bracket so the grille is tightly into position (fig 3).
4. Using the screws provided for (the driver's side which is blank) secure the grille (fig 4)
5. Remove the tape and the grille is now complete.
