Oil Cooler Grille Fitting Instructions:

**Please note: we advise for ease of fitment, to put the vehicle on a ramp or axle stands due to the position of the Oil Cooler.*

1. Carefully guide the grille into the aperture, making sure the brackets on the grille have guided into the aperture (fig 1 & 2).
2. Using the screws provided, screw the grille into the undertray to secure the grille into place (Do not over tighten) (fig 3).
3. The grilles are now complete (fig 4).
