Centre Mesh Grille Fitting Instructions:

1. Fit masking tape around the apertures to protect the paintwork while fitting.
2. Offer the grille to the aperture and ensure the grille is correct in the aperture (fig 1).
3. Once the grille is in place and central, keep pressure on grille and secure the clips to the aperture making sure the grille stays central in the aperture. (Use a screwdriver through the mesh to hold the clips in place).
4. Remove the tape and the grilles are now complete (fig 3).
