

HONDA S2000 (2000 – 2004 MY) Stainless Steel Sports Grille Kit

Kit Contents: -

- 1. off Centre Grille

Mesh Grille Fitting Instructions

1. Put masking tape on painted surface of bumper where the brackets of the Mesh grille will run.
2. Locate the upper brackets of the grille into position so that the brackets clip flush to the back of the aperture.
3. Holding the grille with very light pressure to the bumper push the lower retraining brackets up to allow them to pass up into the aperture. (Do not push them up to far or they will not spring back)
4. Once all of the brackets are in the bumper aperture slowly push the lower half of the mesh grille back into the bumper until all of the brackets have clipped into the back of the bumper aperture. (Check with a torch that all of the brackets have engaged. If there are any that have not hooked into position use a long screwdriver to put pressure on the top of the bracket while putting pressure on the front of the grille)
5. Remove the masking tape and the grille is complete.
