Rear Mesh Grille Set Fitting Instructions

1. Fit masking tape just around the edges of the apertures to protect the paintwork while fitting.
2. Carefully guide the grille into the aperture making sure it is centralised in the aperture (fig 1).
3. Using the screws provided, screw the grille into the plastic moulding to secure the grille into place (left- and right-hand side). (Do not over tighten) (fig 2 & 3).
4. Remove the tape and the grilles are now complete.
