**Upper Mesh Grille Fitting Instructions**

1. Fit masking tape around the apertures to protect the paintwork while fitting.
2. Locate the left side of the grille into the aperture making sure to guide the bracket through the aperture.
3. Locate the right side of the grille into the aperture, slightly flexing the grille as shown in Fig 1.
4. Check that all the brackets have located behind the aperture and check they have engaged properly by using a thin screw.
5. Once the grille is securely in position fix the grill to the plastic using the screw as shown in fig 2.
6. The Grilles are now complete.
