## **Outer Mesh Grille Fitting Instructions**

1. Fit masking tape around the apertures to protect the paintwork while fitting.
2. Offer the lower grille to aperture and gently push the grille into position making sure the grille is centralized (fig 1).
3. Using the screws provided, screw through the mesh diamond and secure the grille so that it is tightly into position (fig 2).
4. Offer the upper grille to aperture and gently push the grille into position making sure the grille is centralized (fig 3).
5. Using the screws provided, screw through the mesh diamond and secure the grille so that it is tightly into position (fig 4).
6. Remove the tape and the grilles are now complete.
