Stainless Steel Sports Grille Centre

Kit Contents: -

- 1. off Centre Grille
- 1. off Plastic Rivet

Tools Required: - (Not included in set)

- Cordless Drill
- 5mm Drill

Grille Fitting Instructions

1. Using Masking Tape protect painted body work around the area where the grille is to be fitted.
2. Remove number plate if required.
3. Locate the grille into the aperture allowing the 2 side spring brackets to pass into the aperture until they hook behind the bumper skin.
4. Push the centre of the grille back until the grille looks even top and bottom.
5. Holding the grille in position drill through the upper bracket into the bumper, then place the plastic push rivet into the hole and push in the pin to fix.
6. Remove the tape.
7. Replace Number plate if needed.
8. Your grille is now complete.
