Outer Mesh Grille Fitting Instructions:

1. Fit masking tape just around the edges of the apertures to protect the paintwork while fitting.
2. Carefully guide the grille into the aperture making sure the clip on the outer side of the grille is secure first in the corner (fig 1 & 2).
3. Then follow with the remaining clips, securing them behind the aperture).
You can use a long thin screwdriver to make sure they are clipped in position (fig 3 & 4).
4. Remove the tape and the grilles are now complete.
