

# Porsche 996 Turbo – Front LH/RH Sports Grille Kit

**Kit Contents: -**

- 1 off LH Side Grille
- 1 off RH Side Grille

**Tools required: -**

- Flat screwdriver
- Masking Tape (recommended)

**Side Mesh Grille Fitting Instructions**

1. Remove the original RH side plastic insert from the bumper.
2. It is recommended that masking tape is used in the aperture to protect any contacting surfaces.
3. Locate the wire pin and the top bracket into the original slots in the bumper aperture, Fig 1.
4. When fitting ensure that the frame of the grille is to the front of the aperture in the corner where indicated, Fig 2.
5. Push the grille into the cavity until the 2 clips fit into place, if required use a flat screwdriver to ensure that both clips are secured into the bumper aperture, Figs 3 and 4.
6. Repeat the above for the other hand grille.
7. Remove the masking tape, your assembly is now complete.
