Upper Mesh Grille Fitting Instructions

1. Fit masking tape just around the edges of the apertures to protect the paintwork while fitting.
2. Carefully guide the grille into the aperture (start from the right-hand side) making sure the is centralized in the aperture (fig 1) and the engage the opposite side bracket, then centre brackets, working along the grille (fig 2)
3. Ensure all brackets have clipped behind the aperture). (You can use a long thin screwdriver to make sure they are clipped in position (fig 3). Repeat this process across the grille and top and bottom (fig 4).
4. Remove the tape and the grilles are now complete.
