Lower Mesh Grille Fitting Instructions

1. Fit masking tape just around the edges of the apertures to protect the paintwork while fitting.
2. Carefully guide the grille into the aperture making sure it is centralized in the aperture (fig 1) and the brackets have clipped behind the aperture (*the bottom bracket is to the left of the centre OEM grille slat*).
3. You can use a long thin screwdriver to make sure the brackets are clipped in position (fig 2)
4. Follow this along the grille from the right-hand side to the left (fig 3 & 4).
5. Remove the tape and the grilles are now complete.
