## Centre Mesh Grille Fitting Instructions:

1. Fit masking tape just around the edges of the apertures to protect the paintwork while fitting.
2. Before fitting ensure that the grille is the correct way (the larger grille bracket is at the top centre – ensure this is appropriate for correct installation (fig 1).
3. Carefully guide the grille into the aperture making sure the is centralized in the aperture and the brackets have clipped behind the aperture). (You can use a long thin screwdriver to make sure they are clipped in position (fig 2).
4. Remove the tape and the grilles are now complete.
