### Lower Mesh Grille Fitting Instructions:

1. Fit masking tape just around the edges of the apertures to protect the paintwork while fitting.
2. Carefully guide the grille into the aperture, *start with the left-hand side of the grille* making sure the grille is centralised in the aperture (fig 1). Then secure the retaining bracket in the centre of the grille (fig 2).
3. As shown in fig 3 using the screws provided, screw the grille into the plastic moulding to secure the grille into place (L/H & R/H) **DO NOT OVERTIGHTEN**
4. Remove the tape and the grilles are now complete (fig 4).
