Tools: -

- 3mm Drill
- Screwdriver

LH & RH Mesh Grille Fitting Instructions

1. Masking tape on bumper.
2. Locate mesh grilles to aperture against existing grille as shown in fig 1.
3. Mark around location bar for drilling as shown in fig 2.
4. Drill 3mm hole in bumper Fig 3 then insert the location bar.
5. Fix to the existing grille using the screws provided through the welded washers Fig 4.
6. Once grille is screwed in position place retaining washer over location peg as shown in fig 5 then push washer down until flush with back of part as shown in fig 6.
7. Your grilles are now complete.
