

Subaru WRX – STI VA

Stainless Steel Sports Lower Grille

Kit Contents: -

- 1. off Lower Grille
- 4. off Grip Clips

Existing Grille Removal Instructions

1. Firstly, start with removing the bumper from the vehicle (see separate instruction).
2. Once bumper removal is completed remove the existing lower grille from aperture as shown in.
3. Gently prize the plastic clip with a screwdriver allowing the grille to be removed Fig 1 & 2.

4. Guide the grille into position ensuring the Upper brackets have located behind the apertures as shown in fig 5.
5. Hold the grille in position then push the grip clips onto the bracket and the plastic aperture (fig 6 & 7) so that the grille and plastic are held together tightly. **(the bracket must clip over both the plastic and the bracket as shown).**
6. Check that all the clips have hooked behind the aperture, you can do this using a long screwdriver push the clip down ensuring it has clipped behind the aperture fig 8.
7. With the grill now in place you can re-assemble the bumper and enjoy your New lower grill.
8. The grilles are now complete.
