

SUBARU IMPREZA

Stainless Steel Sports Grille Upper

Kit Contents: -

- 1. off Upper Grille
- 2. off No. 6 x 3/4" Screws

Tools: -

- Torch
- Long flat screwdriver
- Philips Screwdriver

Mesh Grille Fitting Instructions

1. Put masking surface of upper existing grille to protect plastic face.
2. Carefully push the grille into the aperture until the upper and lower spring hooks engage at the rear of the plastic moulding. (Check with a torch that all of the brackets have engaged. If there are any that have not hooked into position use a long screwdriver to put pressure on the top of the bracket while putting pressure on the front of the grille)
3. Using the supplied screws, fix the ends of the grille to the existing plastic through the mesh and the U shaped brackets, on each end of the grille. (Do not over tighten)
4. Remove the masking tape and the grille is complete.
