- 3.off M4 X 20 Cap Screws

[YouTube Tutorial:](https://www.youtube.com/watch?v=cVvO6EMwuj8) <https://www.youtube.com/watch?v=cVvO6EMwuj8>

1. Remove the plastic plate holder from the car.
2. Fit masking tape just around the edges of the apertures to protect the paintwork while fitting.
3. Guide the grille into the aperture, ensuring the lower part of the grille is fitted first, making sure the retaining brackets secure (fig 1). **Do not tighten fully**
4. Offer the grille to the aperture and locate the grille ensuring it is central (fig 2).
5. Once the grille is in place and central, keep pressure on grille and tighten the retaining brackets (fig 3 & 4).
6. Using the screws provided, secure the grille (DO NOT OVER TIGHTEN) (fig 5)
7. Snip the tabs off the number plate holder and refit over the grille (fig 6).
8. Remove the tape and the grilles are now complete (fig 7).
