**Lower Mesh Grille Fitting Instructions**

1. Fit masking tape around the apertures to protect the paintwork while fitting.
2. Offer the grille to aperture and guide the three retaining brackets through the existing aperture (fig 1 & 2).
3. Hold the grille in place and tighten the retaining brackets making sure the grille stays central in the aperture.(use a screw driver through the mesh to hold the retaining brackets in place (fig 3).
4. Once the grille is tightly in place and central, screw the four No6 x ¾ screws through the locating diamonds on the grille (fig 4).
5. Remove the tape and the grilles are now complete.
