Outer Mesh Grille Fitting Instructions

1. Fit masking tape around the apertures to protect the paintwork while fitting.
2. Insert a flat head screwdriver between the two plastic apertures creating a slight gap as shown in fig 1
3. Guide the outer part of the lower outer grille to aperture ensuring the brackets hook behind the aperture and then flex the grille so the inner part of the grille clips behind the aperture (fig 2).
4. Guide the outer part of the upper grille to aperture ensuring the brackets hook behind the aperture and then flex the grille using a allen key through the mesh so the inner part of the grille clips behind the aperture (fig 3) check they have engaged properly by using a thin screwdriver as shown in fig 4.
5. Remove the tape and the grille is now complete.

THANK YOU FOR CHOOSING A ZUNSPORT PRODUCT.
